

Burgesses To Vote on Gas Franchise

Voting To Take Place on Friday July 29th

On the 29th of this month the burgesses of Redcliff will be called upon to vote on a by-law, the object of which is to extend the franchise of the Canadian Western Power and Fuel Company, for an other ten years.

This company, which is familiarly known as the Gas Company purchased the original franchise from the Redcliff Realty Company several years ago and has been carrying on ever since.

The reason for the necessity of voting on this by-law on the 29th is that the original franchise, which was for 20 years, expires on the 18th and it is essential that the franchise either be renewed with the same company or taken over by the town.

When the original franchise was granted the term was set at twenty years in the hope that at the expiration of that time the town would be in a position to take it over and run it as a public utility. Unfortunately the town is not yet in a position to do so, and consequently, some other arrangement must be made. At the moment therefore, the only feasible solution appears to be the extending of the franchise to the present holders, who have spent considerable money improving the system since taking it over.

There have been a few minor changes made in the original franchise but these have been made with the approval of both the solicitor acting for the town and the Public Utilities Commission who have seen to it that the town's interests are safeguarded.

The ballot to be used for the voting on this by-law will be very simple, containing only the words:

FOR THE BY-LAW

AGAINST THE BY-LAW

and the cross will be made opposite which ever way you want to vote. Only property owners may vote on this by-law and it requires two-thirds of the votes cast, to carry it.

The Review would advise all ratepayers to turn out on voting day and cast their ballots so that the council may get a good idea of the voice of the people concerned.

In looking at this question from all its angles the Review has no hesitation in advising all to vote "FOR" the by-law as it appears to be the only alternative under the circumstances. The passing of the by-law means that by the terms of the franchise agreement the town has some control over the gas company regarding rates, service, etc., while on the other hand with no franchise agreement as provided in the by-law may mean that the town is left with strings whatever on the company and that it could do about as it liked concerning the running of the system.

The town council has gone very thoroughly into the whole agreement, clause by clause. Legal advice has been secured and representatives of both parties

Quiet Session of The Town Council

Only Routine Business Was Taken Up

Beyond the regular routine business nothing of importance happened at the council meeting last Monday.

In answer to a letter asking for particulars regarding the land settlement scheme, a letter was sent stating that only those who own land to which they can be moved, are being considered at present.

Mr. Oakland's account for repairs on the building which he now rents from the town, was approved and instructions given to have same apply on rent.

The usual monthly accounts were approved for payment.

A Little baby boy was born to Mr. and Mrs. A. McMilligan yesterday. Unfortunately the infant lived only a few hours. The funeral took place today.

The heavy rains last night again will give the backward crops a new lease. Early snow grain was badly in need of this moisture. The rain will greatly improve the feed prospects.

Frederic Brownlee is arranging for a meeting of western promoters and mayors for the purpose of trying to arrive at some uniform way of dealing with the unemployment situation.

Jim Quinn and "Dutch" Ross formerly of Redcliff but now farming near Olds, motored to town yesterday to visit friends for a few days. They report crop conditions good in their district.

A transient motorist stopped at O'bea's garage while passing through town last week and helped himself to some gasoline.

On arriving at the Hat it was found he had been helping himself to all kinds of things in his travels. He drew a year at Lethbridge.

The football game last Thursday evening between the Durham country boys and a picked team ended in a tie both teams scoring one goal. The game attracted a fair crowd and was as fine an exhibition as we have had this season.

All three men who took part in the fatal shooting of Mounted Policeman Ralls, in Saskatchewan last week are now accounted for. The two Kurlak Brothers were captured alive. The third, Miller, shot himself just as the police were closing in on him. The rounding up of these desperadoes in such short time is a credit to the police and also to the brave civilians who helped in the man hunt.

Three men have appeared before the Public Utilities Commission, which has approved of the new agreement in every particular as safeguarding both the town and the company. Members of the town council are unanimous in their support of the by-law. These facts should be sufficient to convince any of the burgesses who may "have any doubts in the matter, as to how they should vote on the 29th.

Officers Elected For The swimming Pool

To Hold Aquatic Sports Wednesday July 27th

At a meeting held last Saturday the Swimming Pool association was re-organized for this season.

The Following officers were elected:

President — E. L. Stone
Vice Pres. — G. H. Worts
Sec. Treas. — J. R. Schille
Ex. Comm. — R. S. Hodge, J. M. Podesta, Geo. Lowens, C. G. Buchholz, P. Lavelle, H. Sangster, R. C. Hargrave, A. J. Leamouth, H. Champ, J. Kitchin, W. J. Campeau, E. T. Cooke, R. J. Cann, C. T. Hall, W. Evans B. Allison and Dr. Ward.

As there was a small balance in the bank from last year it was decided to have the pool opened as soon as possible, that the services of A. Patterson be secured a caretaker; and that the pool be continued in operation as long as funds permitted.

The secretary treasurer was instructed to secure season tickets and have same distributed among members of the executive for disposal.

It will all depend on what success they meet how long the pool will be kept open.

A Committee with H. Champ as chairman and composed of Messrs. Campeau and Dr. Ward was appointed to make the necessary arrangements for the annual aquatic sports to be held on Wednesday July 27th.

The swimming pool is being well patronized these days. It is surely a place of great amusement for the youngsters and Mr. Patterson is taking a great interest in their comfort and safety.

An ice cream social will be held on Monday afternoon, July 25th on the lawn at Mrs. King's residence, Fifth street, sponsored by the members of St. Ambrose S. W. A.

Mr. and Mrs. D. Fairbairn of Carnduff, Sask. who are motoring through the mountains, stopped off here for a few days to see the famous brother W. J. and Mrs. Fairbairn.

Local Round-up Was A Great Success

Only Few Stray Stock Were Taken to Pound

The round-up for this district, preparatory to forming community leases, took place last Tuesday as advertised, and the result has been most satisfactory. The territory concerned was divided into districts and each was covered thoroughly by riders from within the several districts.

The object of the round-up was to rid the territory of stock which had no right to be running at large in the prescribed area, but as those owning such stock had taken the warning issued some time ago very few animals were impounded in the round-up.

Those interested in the venture are well pleased with the result and are looking forward to the ultimate success of the community lease system provided all observe the rules and regulations to the letter and lend a hand in making it so.

The details of the round-up in this immediate vicinity were under the direction of Geo. Dickson and H. Dacre.

Mrs. O. F. Reeves Passed Away Yesterday

Funeral Takes Place in Medicine Hat Today

Mrs. O. F. Reeves, who was taken to the hospital last week for treatment, died suddenly yesterday. Deceased who has been a resident of the Terra Nova district north of town for a number of years, was 43 years of age. Besides her husband she leaves a family of seven young children.

The funeral takes place in Medicine Hat this afternoon, Rev. M. Stewart of Redcliff officiating.

Mr. and Mrs. Priestly and Miss Edwards, of Kerroberts, Sask., motored to town yesterday and are the guests of Mr. and Mrs. A. Sanderson. Mrs. Sanderson will turn them within the week end.

How is Your Subscription?

Will Represent 450 Million at Conference

And One Quarter of Known Surface of Globe

The first Imperial Conference ever held outside the British Capital will open in Ottawa on July 21. The British Isles and all of the Dominions within the Empire will be represented at this conference where Imperial trade relations and other matters of prime importance to the British Commonwealth of Nations will be discussed. The business meetings of the conference will be held in the Parliament Buildings but the delegates will all make their headquarters at the Canadian National Chateau Laurier Hotel which is within sight of the house of Commons. The delegates to the conference represent a total population of 450,000,000 people and countries that occupy an area of 13,909,782 square miles, or about one quarter of the known surface of the globe. Of this population about 60,000,000 are whites. The remainder include 315,000,000 of the native races of Ceylon and India; 40,000,000 of the black races; 6,000,000 Arabs; 6,000,000 Malays; 1,000,000 Chinese and 1,000,000 Polynesians and various other elements. The religions represented include 210,000,000 Hindus; 100,000,000 Mohammedans; 80,000,000 Christians of which 67,000,000 are classed as Protestants; 12,000,000 Buddhists; 12,000,000 Animists; 4,000,000 Sikhs; 2,000,000 Jains and Parsees; 750,000 Jews and the remainder Polytheists.

C. Mosey of Bow Island, was in town Tuesday on business.

From all accounts there will be a large attendance at the U. F. A. meeting in Cliff Hall on Monday, July 18th. The meeting will be addressed by Mr. Norman Priestley vice president of the U. F. A. and John Foulie one of the directors.

Diamond D's Get Back at Brick & Coal

Win Three to One in League Fixture Last Monday

When the football fans arrived at the grounds last Monday evening and saw the two teams lined up for action, one fan remarked: "Oh! the Brick & Coal is playing the Brick & Coal to night." The cause of the remark was quite natural as a number of the Brick's original players were seen on both lineups. This was caused by the transfer of some of the players during the past week.

The game, however, was a league fixture between the Brick & Coal and the Diamond D's.

The Bricks were considerably weakened and the Diamonds considerably strengthened since last these two teams met and the natural result was the Diamonds won out. The score was 3 goals to 1.

The game opened with the Diamonds the aggressors and for a time it seemed as though they would score any minute. Play soon changed, however, and became very even. After 32 minutes of end to end play, Podest gathered in a nice pass and scored for the Diamonds.

The balance of the period was very even and ended with the Diamonds one up.

The second period was much more lively throughout. Inside of two minutes T. Davies sent in a twist that gave Hope no chance. Scarcely had the applause for his goal died away than Patterson tallied for the Bricks after a nice run down the field single handed, a pass to the wing and a return right into the goal mouth of which Sid took full advantage. This gave the Brick fans some encouragement; but it was only short-lived as shortly after Podesta netted the third goal for the Diamonds.

The next game here will be on Friday evening when the Legion meets the Diamond D in the Five Roses. The Bricks play the Callies in the Hat next Tuesday evening and the Legion will play the Diamonds here again next Wednesday in a league fixture.

There was a splendid attendance at the impromptu dance in the armory last Friday evening under the auspices of the Brick and Coal football club. Both the music and the floor were all that could be desired and a most enjoyable evening was spent.

This week season tickets for the swimming pool are in circulation. It is hoped those who are selling them will make a special effort to dispose of them before the end of the month and report to the secretary, Mr. Schille, at the bank as soon as possible. It is also hoped that those who are desirous of keeping the pool open through the month of August will help to make this possible by purchasing a ticket. A season ticket which costs \$1.00, entitles all school children in the family to the privileges of the pool for the season.

Football Schedule for July

Callies vs Diamond D	Tuesday, July 5th	Five Roses
Brick & Coal vs Diamond D	Monday, July 11th	League
Legion vs Callies	Tuesday, July 12th	League
Diamond D vs Legion	Friday, July 15th	Five Roses
Callies vs Brick & Coal	Tuesday, July 19th	League
Diamond D vs Legion	Wednesday, July 20th	League
Legion vs Brick & Coal	Friday, July 22nd	Five Roses
Brick & Coal vs Callies	Monday, July 25th	Five Roses
Legion vs Diamond D	Tuesday, July 26th	League
Diamond D vs Callies	Friday, July 29th	Five Roses

First Alta Cup Draw — Med Hat, Tuesday, August 2nd.
Second Alta Cup draw — Redcliff, Friday, August 5th.
Final Alta Cup games to be arranged when teams known.

Callies vs Brick & Coal — date to be arranged Five Roses
Brick & Coal vs Legion — date to be arranged League
All games to be played on grounds of first mentioned club.

The League and Five Roses must be played. The district winner Cup games are scheduled to be must be known by August 15th and as soon as this series is finished the remaining local games of the Alberta Cup games will be played off.

Keep Health the Eno Way

You do not have to use drastic and strong cathartics that cause irritation. ENO'S Fruit Salt, by gently and safely ridding the intestinal tract of poisons, will help to make you and keep you healthy. A dash of ENO in a glass of water every morning or night prevents the evils of constipation. Be ENO conscious!

CWS

Want In The Midst Of Plenty

Concrete Action Necessary To Overcome Inflation Economic Crisis

Nero fiddled when Rome burned, but inaction now may mean many millions are suffering want in the midst of plenty is no more excusable, Tom Moore, President of the Trades and Labor Congress of Canada, writes in an article entitled, "Geneva and the World Economic Crisis" which he has prepared for the June number of Interdependence, the journal of the League of Nations Society in Canada. He has just returned from attending the Sixteenth Session of the International Labour Conference.

To continue seeking remedies along the old worn paths of the past century he says is futile. New ground must be broken if genuine progress towards more normal conditions of life is to be made.

Seven plenary sessions of the International Labour Conference, presided over by Senator Clifton Robertson of Canada, Mr. Moore reports, were devoted to a discussion of this provocative annual statement of the now deceased director of the International Labour Office, Albert Thomas. "The inspiration here," Mr. Moore says, "was that financial and economic anarchy prevailed throughout the world and that unless action was taken and taken immediately by those in power and with authority, greater disaster could not much longer be avoided."

Not only did the Conference re-

view the situation but it again advanced proposals which if broadly accepted, would prepare the way for a return to a more ordered form of society. It urged action along these lines at the forthcoming conference at Lausanne; that the problem of reparations and other international political debts be settled in accordance with the general principles of world economy; that in connection with the conference a series of plenipotentiaries of all states be convened to settle the general problem of currency and credit and to institute an international monetary system possessing the necessary qualities of stability; that, finally, steps be taken to secure agreements between states leading to the resumption of economic activity on the basis of broad concerted plans taking into consideration the gradual and systematic increase in the consumption of the masses and the regular extension of international trade. A proposal of a "gold trustee" regulated to create a transitional period during which further aggravation of the economic situation could be avoided was noted by the Conference and a recommendation made that the League of Nations place the proposal before its competent bodies as early as possible. Public works on both a national and international scale were advocated and in this connection Mr. Moore states that the Conference pointed out that public health works have the advantage of increasing the welfare of populations and raising their standards of living and that first thought should be given to the development of hydraulic works, water supply, abolition of unhealthy conditions, construction of workers' dwellings and decontamination of rural districts.

Mr. Moore comments on the following statement in the report of Albert Thomas: "In a country so rich as the United States of America distress may be seen which is now unknown in the poorer countries of Europe, or at any rate in those which have an effective system of unemployment insurance. There are the 'bread lines' in the cities of the unfortunate unemployed awaiting the distribution of a meagre pittance."

Mr. Moore says that unfortunately this remark might be applied with equal truth to the Dominion of Canada.

Britain's Fruit Bill

Increased By Nearly \$25,000,000 Last Year

The fruit bill of the United Kingdom went up by nearly \$25,000,000 last year, according to a report issued by the empire marketing board, with oranges for the first time in history proving the popular leader. Apple, millions of which came from Canada, were second and bananas third, the three fruits accounting for nearly three-quarters of the fresh fruit export.

But the consumption fell off, mainly owing to the small home crop of apples, pears, plums and cherries. The domestic apple crop was 60 per cent less than in the previous year.

University To Economize

Abandonment by the University of Montreal, of three courses and the practice of sponsoring free public lectures, was announced recently by Canon Emile Charlier, dean of the university. The move was in accord with the university's plans of stringent economy, Canon Charlier said.

Goods Sell Readily

Sale of goods made by blind persons under the auspices of the Canadian National Institute for the Blind during the past year realized a total of \$476,000. It was shown at the report presented to the 141st annual meeting of the institute in Toronto.

Leeds, England, may use cast iron blocks for pavements.

The World In Trouble

No Directive Force To Alleviate Conditions Which Threaten Our Very Existence

"We are living in a civilization which is very rapidly going to pieces. There may be a dreadful fire in store for many young people here tonight. You may be shot, or maimed and maimed; you may be scourged or starved before your lives run out! One thing is certain—we will never be bored."

Our economic system has failed due to the extraordinary thing that while mankind has increased production to an enormous extent one-half of the world is threatened with famine. In spite of these calamities which endanger our very existence, nothing is being done.

The reason is apparent. There are no comprehensive organizations in the world capable of undertaking the restoration of our money and credit, our economic and social life. Our directive organizations have not kept pace with the developments of modern life, and that is the essence of the trouble which threatens ruin and disaster to the world today.

Just as in the time of Noah, when the Flood came, we must build an ark amid the waste of ruin that is around us. And if our efforts to save civilization fail, then we may take heart in that perhaps we are laying the foundations for another and far better one.—H. G. Wells.

Frozen Wild Flowers

Flowers Sent From Australia To England Were Kept In Refrigerator

An interesting example of the application of refrigeration to industry is afforded in the following item which appears in the current issue of the Cold Storage News Letter, issued by the Dominion Dairy and Cold Storage Branch:

"A bunch of waratahs, fennel flowers, and native roses arrived in England from Australia recently. They were shipped by John D. Moore, Australian agent for Messrs. John Doulton, of Lambeth, to show the English pottery painters the true form and color of some of Australia's most popular native flowers. Typical blooms were selected for the purpose, and were placed in a can of water which was frozen by the Fresh Food and Ice Co. Ltd. Afterward, the ice block containing the flowers was placed in a wooden box and sent to the liner to be placed in the freezing chamber."

Fish and How To Cook It

Dominion Department of Fisheries Has New Booklet Printed in Both French and English

Copies of the new book, "Fish and How To Cook It," which has been issued by the Dominion Department of Fisheries, are now available either in French or English at a price of ten cents each. The booklet has been prepared under the direction of Mrs. Evelyn Spencer, specialist in fish cookery, who is now on the department staff. It gives authoritative information and is designed to meet the needs of the average Canadian household. Persons wishing to receive the booklet should write the Deputy Minister of Fisheries, Ottawa, enclosing ten cents for each copy required and stating whether the English edition or the French edition is desired.

Trying Out New Plan

Colony To Be Cultivated In Canada

For Bermuda Growers A plan to cultivate citrus in Canada is being tried in the first year of the plan in Bermuda and harvest it for export to Canada in February, has been made known by W. R. Evans, marketing adviser to the Bermuda Department of Agriculture. It is understood that an expert is coming to Montreal to plant the first seed. The scheme would advance the opening of citrus shipment from Bermuda for the month of two or three months.

Teacher In Hamagipped

A silent teacher is a phenomenon in a Havana, Cuba, public school, she has voluntarily retired from saying a word for a month. She was threatened with complete loss of her voice unless she gave her vocal organs a thorough rest. She does not know how much longer it will be necessary for her to remain dumb, but she is awaiting the doctor's verdict. Meanwhile, she is writing her answers to questions.

Canadian farm flocks of hens and chickens increased by 3,325,000 from between 1929 and 1931, the annual statistics for the latter year showing a total of 10,720,000 for these classes of poultry.

It pays in pleasure—and pays in actual cash.

Painting Eiffel Tower

Engineers Think Structure May Become Menace In Twenty Years

The Eiffel Tower is forty-five tons heavier than it was last year. That is the amount of paint that forty-five painters are applying to the giant skeleton, still the tallest highest structure in the world. Only the Empire State and Chrysler Buildings in New York are taller.

Paris engineers went over the tower on an annual inspection and found it in good shape. Several engineers say that it can stand for another century before it will have been worn by the elements, but most engineers agree that it may become a nuisance in twenty years.

By 1950, Eiffel Tower may have to be torn down or rebuilt, the process of rebuilding being such a costly and difficult task that Paris may easily lose the most visible feature of its skyline. The base of the great tower is stronger—less its top and this is explained by the fact that the top sways in high winds and twists the metal.

The tower is being painted yellow and brown, which all Parisians agree is not pretty. Engineers say that paint of those two colors will increase the life of the tower. One American firm offered to paint the tower with aluminum paint just for the publicity, but this was opposed.

Wise and experienced mothers know when their children are troubled with worms and loss of time in applying Miller's Worm Powders. A most effective vermifuge it is absolute in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

How "Mulliner" Originated

Word Was Formerly "Milner" Given To Milan Merchants

Milan, in Italy, was once the great centre of trade in silks, velvets, and other fine wearing apparel, and any merchant dealing in Milan goods was known as a Milner. In addition there had been gowns, gloves and stockings, the original Milners also dealt in glass, cutlery and inland armor. As trade became more specialized, however, the Milner, or milner as he became known, came to confine his attention to women's wear, and finally to hats alone.

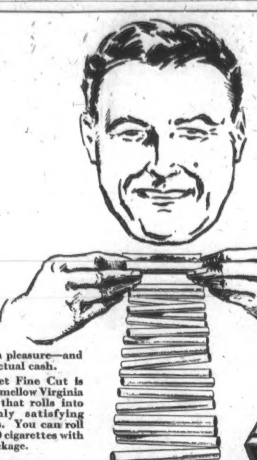

Women Outnumber Men

A fifth of the total population of Glasgow is concentrated in Glasgow, Scotland, where the women outnumber the men. The population of Glasgow is given as 3,088,643, with 1,077,000 females for each 1,000 males. In Edinburgh the women outnumber the men by 12 to 10.

Alaska seal herd is estimated at more than 1,000,000 animals.

Stop and Think!

It pays to "ROLL YOUR OWN" with

15¢ and 20¢ packages—also in ½ lb. vacuum tins

You can cook 3 vegetables at once

in the same saucepan by using GANAPAR

Get each vegetable up to its own bag of Ganapar Cooker Parchment. There won't be any odor, not even from cauliflower. All the food value and flavor will be retained. And you use only one burner instead of two for cooking. The flavors will not mix! Do the same with boiled or steamed fish. No leaker odor in the kitchen. No saucepan or kettles to clean up. No roasting oven. Use your own Ganapar. Fat and juices won't burn. No marinating. No cooking of the pan afterwards. You can use Ganapar repeatedly. It simply rinses it off and hangs up to dry. It doesn't absorb. Makes a perfect dish. Silky, strong, and doesn't get tired. Made by the famous PARANET Heavy Ward Paper in the Green Box.

Special Offer Most grocers, druggists and department stores have Ganapar on sale. If you aren't, send this coupon direct to the makers and we'll give you a new and unique booklet entitled "Delicious, Costly Recipes for the Hundred Recipes as a bonus for your trouble."

Applied Paper Products, Ltd., Hamilton, Ontario. Enclosed find 25¢ for which please send me one full size package of Ganapar Cooker Parchment and your 100 recipes for "Delicious."

Archie Rutherford passed through town today on a motor trip west.

Here and There

Premier Gordon S. Harrington, of Nova Scotia, has returned from his trip to Europe by the Empress of Britain.

Growth of all crops in western Canada is now vigorous and well advanced for the time of year, according to the latest weekly survey made by the Canadian Pacific Railway's agricultural department, and crop prospects in the West as a whole are encouraging.

Members of the British party touring the Dominion under the auspices of the British Columbia Government, arrived at Montreal about the business of Bedford, travelled across Canada by Canadian Pacific rail and later by steamship, stopped over at Banff and will spend between June 15 and July 2 in British Columbia.

Delta Gamma, one of the most important Greek Letter organizations on the continent, held its annual convention this year at the Empress Hotel, Victoria, June 27-July 1. Shopping over at a Canadian store.

If early promise is fulfilled, the Annapolis Valley should this year produce an even larger yield of apples than in 1931, when the total crop was close to a million and three-quarters barrels, is the opinion of leading fruit men of Kentville, N.S. The bloom this year lasted over ten days and attracted visitors by the thousands from Eastern Canada and the United States.

Miss Constance Regan, Middleboro, N.Y., established a record for women anglers on the Tobique River, N.W. Brunswick, recently, when she took a 27 1/2 lb. Atlantic salmon, the largest ever caught with a fly by a woman on that river. The record salmon taken in those waters by a male angler weighed 32 1/2 lb.

Canadian Pacific standard time is standard time this world over. Prior to 1932, every town and city had its own local time, based on the sun, but in that year the standard time of the Canadian Pacific Railway, chief engineer of the Canadian Pacific Railway, that the world should be divided into 24 sections, one for each hour of the day, and that time within each of those areas should be standard, was adopted all over Canada and the United States. In 1934 the plan was also adopted in Europe after a conference held at Washington.

Gilbert Miller, architect, of Vancouver, B.C., has a ground plan for a new house and a narrow road to admit a horse head with an under-wood of five feet five inches taken from a monster ash tree near St. Xavier last season. "It looks" he wrote to A. O. Bertram, general courier agent, Canadian Pacific Railway, "as though both head and neck will fit and be in the scene." But that is the kind of trophy to be got in the forests of Quebec. Big heads and lots of them. (1932)

Synopsis of By-law No. 167 to be Voted on by Burgesses on July 29th, 1932

A by-law has been introduced by the Council of the Town of Redcliff for the purpose of authorizing the Mayor and Secretary Treasurer to execute on behalf of the Town an agreement dated 27th June, 1932, between the Town and the Canadian Western Power and Fuel Company, Limited, which Agreement forms part of said by-law and may be inspected by any person entitled to vote thereon, at the office of the Town Treasurer.

The said Agreement extends for a period of ten years from 18th July, 1932 the Agreement dated 18th July, 1912, between the Village of Redcliff and the Redcliff Realty Company, Limited, whereby the latter was granted the exclusive right to operate a natural gas system and Electric Lighting Plant.

Such renewal Agreement modifies said Agreement of 18th July, 1912, in the following particulars: (a) The Company is to be under no obligation to construct or operate an Electric Lighting Plant and under certain conditions the Town may enter into an Agreement with any other Company to do so. (b) Notwithstanding such

Franchise the owner of a gas well may use gas from such well for his own manufacturing purposes. (c) The Company is not obliged to supply gas for manufacturing purposes.

NOTICE

I, Frank Baird, of the Town of Redcliff, in the Province of Alberta, Returning Officer, hereby certify:

That the foregoing is a true synopsis of a proposed by-law which has been introduced by the Town of Redcliff and which will be finally passed within four weeks after the assent of the burgesses thereto.

The vote of the said burgesses shall be taken on this by-law on Friday, 29th July, 1932, commencing at ten o'clock in the forenoon and continuing until seven o'clock in the afternoon, at the Town Hall in the Town of Redcliff.

Dated at Redcliff in the Province of Alberta, this 7th day of July, A. D. 1932.

FRANK BAIRD,
 Returning Officer.
